

**Securing Your Containers**

**Protecting Your Cargo**

*At Sea. Over Land. On Rail.*

**Intermodal Hardware**

**Moisture Control    Anti-Theft Solutions**

# WE RESPOND TO THE CHALLENGES FACING EVERY CUSTOMER.

We support **SHIP OWNERS** and **SHIP OPERATORS** by delivering lashing products that meet their demanding scheduled requirements.

We are a trusted supplier to every major **INTERMODAL EQUIPMENT OEM** in North America, Canada and Mexico-- maintaining a high inventory level to help them meet tight build schedules.

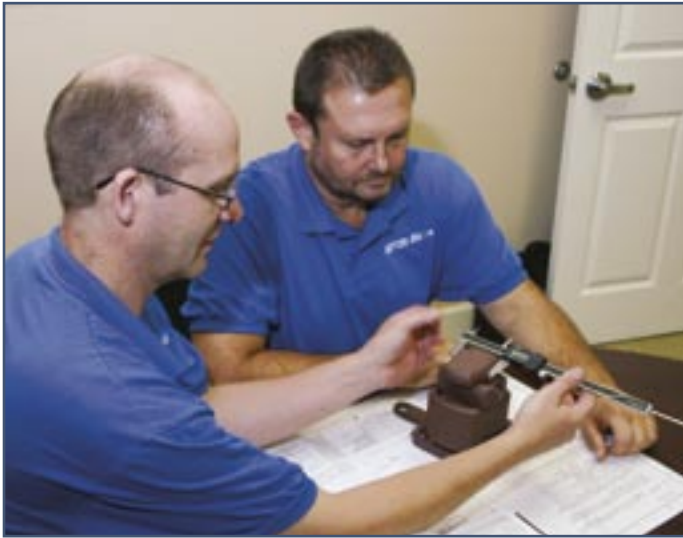

With our high fill rate, we insure that **TRUCK PARTS DEALERS** and **DISTRIBUTORS** always have a reliable supply of intermodal hardware to service both containers and chassis.

We help **SHIPPERS** of both dry and moist cargo reduce spoilage and maintain product quality during transit with superior moisture control technology inside shipping containers.

## BUFFERS USA.

### A HISTORY OF INNOVATION AND ENGINEERING EXPERTISE.

Established as an independent company in 1989, Buffers USA has its roots in Buffers AB-- a Swedish company that was an early pioneer in intermodal hardware development. Over the years we've continued that tradition of innovation and engineering expertise. It's one reason why more and more customers now consider us a partner—not just a supplier. They come to us for solutions to improve performance and shipping efficiency.

*Over 10% of our current parts are proprietary products we designed to meet specific customer needs or industry challenges*

## INVENTORY.

### A HIGH FILL RATE WITH FEW BACKORDERS.

We understand the time to market needs, tight build schedules and service deadlines of our customers. That's why we maintain fully stocked warehouses on both the East and West Coasts. Why we stock over 3500 unique parts. With an inventory level that exceeds over two and half million items on hand at any one time. Whether you need a few dozen or several thousands parts, we deliver.

# PRODUCTS. NO ONE OFFERS MORE.

More solutions. More parts in inventory. More ways to secure containers and protect cargo.

## INTERMODAL HARDWARE FOR SHIP, ROAD AND RAIL TRANSPORT

Lashing gear for ships

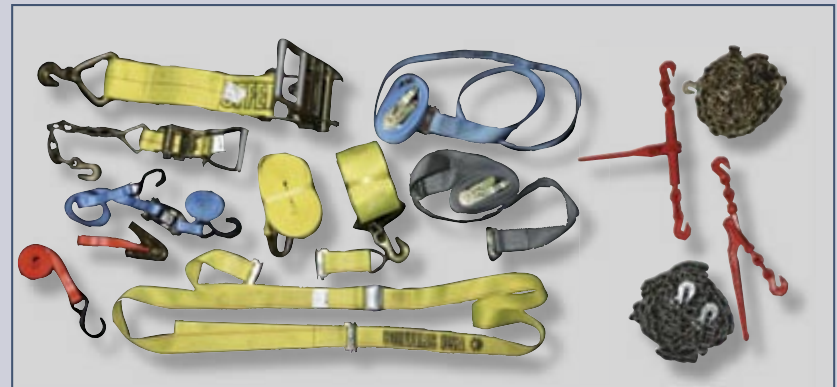

Chain hardware  
for ro-ro ships.

Chassis twist locks and pin locks for securing  
containers on flat beds and chassis.

Truck chassis  
and container  
repair parts.

Cargo control tie downs for flatbed trucks,  
van trailers and flatracks.

### ANTI-THEFT SOLUTIONS

We offer it all. Door seals. Hardened locking devices to prevent theft from containers and van trailers -even the entire tractor-trailer rig. Wheel lug nut seals favored by U.S. Customs for functional safety.

### SUPERIOR MOISTURE CONTROL TECHNOLOGY

Our unique solutions -- designed with built-in moisture collectors-- prevent re-evaporation and assure damage-free moisture levels inside containers during the entire time products are in transit.

## **MANUFACTURING. WE CONTROL THE SOURCE AND THE QUALITY.**

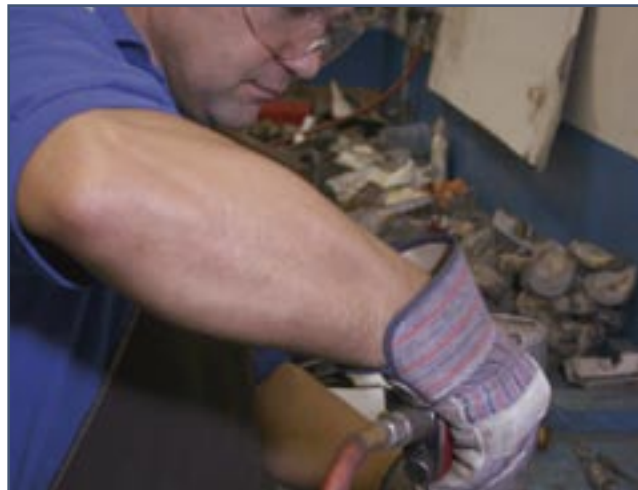

Our Joint Venture manufacturing company, Yantai Buffers Machinery Company--an ISO 9002 certified manufacturer--assures a steady supply of quality parts. Over 200 skilled manufacturing employees share our commitment to quality and on time delivery.

*Rigid quality control standards are in place for all incoming materials, in-process operations and finished parts.*

## **HARDWARE RECONDITIONING AND MAINTENANCE. IMPROVING ROI.**

We extend the useful life of our hardware through a complete service and maintenance program for lashing gear. We offer fast turnaround and expert reconditioning to make our customers' initial investment go further.

# PEOPLE.

## EMPLOYEES FOCUSED ON CUSTOMER SATISFACTION.
